

# AME FLOWT® OPTIMIZER

## AME FLOWT® OPTIMIZER

Full thickness, non-powered advanced wound care therapy mattress system. Micro-conforming distribution system with 130 interconnected air cells. 4 zones of 35 air cells are customized to optimal pressure distribution for each body zone. Air cells react immediately to any slight patient movement to provide continuous reactive pressure redistribution.

Air exchanges and circulates between cells to manage moisture. Waterproof, breathable four way stretch top cover allows for full immersion without resistance. 3" multi-density base layer adds safety and comfort. Middle layer waterproof barrier to protect base layer from contamination/odors.

### Key Product Features

- Pre-programmed for specific patients based on weight.
- Screen assist six step process to optimize therapy in 4 zone.
- Clinical over-ride function.
